Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in July, 2005 and no WBCR was observed. Due to lack of access, only one site was evaluated. The stream did not meet the maximum or average depth criterion at the evaluated site. Because of the overall shallow depth of the stream, the committee recommends removing the WBCR designation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
